PROJECTS

React Todo-app | *ReactJS, JavaScript, Front-End Web Development*

Jul 2023

- Developed a simple, clean to-do app allowing users to add, edit, and delete tasks.
- Implemented a responsive design with persistent storage for tasks.

Delta | *HTML, CSS, Tailwind CSS, JavaScript*

Feb 2022 – Jul 2023

- Created a static website to display information related to mental health and meditation.
- Designed all website elements, including custom SVGs, using Tailwind CSS.

Portfolio Generator | *JavaScript, ReactJS, Bootstrap*

May 2023

- Developed an open-source tool to create professional portfolio websites instantly.
- Included sections for about, skills, experience, and education, generated from user inputs.

MyTaskHub: Task Management App | *Node.js, Express, Sequelize, ReactJS, Tailwind CSS*

Nov 2024

- Developed a full-stack CRUD web application for task management with secure user authentication.
- Implemented a REST API using Node.js and Express, and used Sequelize ORM for database interactions.
- Created a responsive frontend with React and Tailwind CSS, featuring pagination and a user-friendly interface.

EXPERIENCE

Web Developer Internship

Aug 2023 – Sep 2023

Open Weaver

Remote

- Worked on an industry-ready project using the Open Weaver studio issued by ICT Academy.
- Developed a shopping web app and created and managed databases for the website.
- Skills: Internet Design, JavaScript, HTML

Summer Internship

Jun 2023 – Aug 2023

Cisco Networking Academy

Remote

- Gained experience in cybersecurity and network troubleshooting using Packet Tracer.
- Completed various modules related to network security and management.
- Skills: Cybersecurity, Packet Tracer

Final Year Project

Jan 2024 – May 2024

Inderprastha Engineering College

Ghaziabad, UP

- Developed "JobMatch: Intelligent Job Role Recommendation System," a web application that utilizes Generative AI and LLMs to provide personalized job role recommendations based on user resumes.
- Integrated AI-generated quizzes to assess user aptitude for suggested roles and offered tailored career advice with resources for skill improvement.
- Used React JS and Flask to build an interactive and seamless user interface for resume uploads, result displays, and quizzes.
- Skills: Machine Learning, Generative AI, LLMs, React JS, Flask, Python
